

FOR TODDLERS

CRAWLING GAME

CRAWLING GAME

Objective

Crawling Game stimulates the kinaesthetic and tactile senses, and the children practice spatial orientation.

Equipment

Tables, benches, chairs, etc.

Instructions

1. Let the children crawl on the floor or on a lawn/grass plain.
2. The children can crawl under a table, between chairs, under benches, etc.

Variation

- The children can play 'copycat' whilst crawling with one child leading and two or three children crawling behind him/her. Remember to change the leader after a short period of time.
- The children can crawl up elevations, e.g. a bench or on a sofa.
