

FOR TODDLERS

SOUND LOCALISATION

SOUND LOCALISATION

Objective

Through the localisation of sounds, the children's sense of hearing is stimulated. Variations can be also added to practise basic motor skills.

Equipment

Rhythm instrument or other object that makes a sound

Instructions

1. An adult makes a sound with a rhythm instrument.
2. The children try to localise the sound and go to the place where they can hear that the sound is coming from.

Variation

- The children can crawl or run to the sound.
