

PAIRS TAG

PAIRS TAG

Objective

In this version of tag, the children cooperate in pairs and will have a high-intensity pace when they run to tag another pair.

Equipment

No equipment required.

Instructions

1. All the children form a pair by holding hands.
2. One pair (or several pairs if many children are playing) are the taggers and shall tag another pair.
3. When a pair is tagged, they become the taggers and try to tag another pair.

Variation

- To increase the intensity of the game, you can have several pairs of taggers.
- By, for instance, making the play area smaller, the children must be aware of the other players to avoid collisions.
